

Copenhagen, June 26, 2014

Proposed regional organisation for developing "Joint recommendations" within the CFP and environmental legislation

The Standing Technical Expert group is considered a group of relevant officials having the overview of initiatives by Member States.
Referring to the "High Level Group" composed by fisheries directors.

The Danish proposals are jointly prepared and coordinated with the Environmentatl Ministry / Nature Agency

Ad hoc groups are launched and chaired by the initiating Member States (DK) and will be working with relevant participation of Member States with direct management interests (SE and D) until the Joint Recommendation will be settled. Afterwards the ad hoc group will be dissolved.
