

Additional questionnaire for Danish participants in international projects:

Please, provide a one-page (A4 as maximum) response to the 3 questions

1) Relevance of Danish participation in the project

The answer may include a description of:

- The subject's relevance for Denmark and applicability of the outcome in a Danish context.
- How the project will strengthen the Danish position in the specific field of research.
- The Danish research community's and other Danish stakeholders' benefit from participating in the project.

2) Output and novelty

The answer may include a description of:

- The actual output of the project? (e.g. model, product, knowledge).
- The news value and level of innovation of the output.
- How it differs from existing products, models or methods.

3) Business potential and relevance for Denmark:

The answer may include a description of:

- The project's relevance for the Danish agriculture and food sector and the target group.
- The potential commercial output of the project.
- The kind of innovation promoted through the knowledge produced by the project.
